MEMBER OF OUR UNION  
ESTABLISHES 18 RECORDS  
WITH "LABOR NEWS REVIEW"

An old and respected member of Office Employees Union, No. 11773, Albert N. Dennis, is scheduled to begin this month his ninth consecutive year of broadcasting the now famous "Labor News Review," over Station WJSV of the Columbia Broadcasting System. It is currently heard every Saturday evening at 6:30.

Members of our union have long been interested in the "Labor News Review" and many make it a point to hear the program regularly. All are proud of the fact that a member of our union originated a virile labor program, which pioneered the way for several good labor programs that are now heard on various radio stations. Especially are we proud of the fact that Brother Dennis has been enabled to go on and establish 18 different records with the "Labor News Review." Among these are: the oldest labor program in the world still presented in its original form; the oldest continuously presented weekly program of any kind in America (416 weeks without missing); the oldest program continuously presented in Washington; the most extensively quoted weekly program of any kind in America; the largest regular listening audience of any speaking program of any kind on any station in Washington; the largest audience of government executives and general government employees of any program heard in Washington, not excepting those prepared especially for government employees; it has had more distinguished guests than any weekly program in America (over 300)—and so on, for a total of 18 distinctive records. Of outstanding importance just now is the fact that material used on the "Labor News Review" was recently selected for regular use in England.

Albert N. Dennis, who originated this program and is still its director and commentator, has been a labor writer and editor since 1912 and interested in radio since its practical development in 1921. After serving as news editor for our splendid local labor newspaper, "The

## Green Calls OEU National Conference

*Scheduled for July 28 at Palmer House in Chicago*

On June 22 President William Green of the A. F. of L. issued a call for a national conference of all office employe unions at the Palmer House in Chicago, commencing at 10 A.M. July 28, 1942.

In issuing the conference call President Green pointed out that the conference is being scheduled in conformity with the action taken by the Seattle convention of the A. F. of L. last October. In his call President Green urged all OEU locals to send a duly accredited delegate, and he pointed out that resolutions and administrative proposals may be submitted by the delegates in attendance at the conference.

The purpose of the conference as pointed out by President Green is as follows:

**"This conference is called for the purpose of reorganizing the American Federation of Office Workers International Council, dealing with the administrative affairs of said council, considering ways and means by which practical and successful organizing work may be carried on among office workers, and acting upon measures designed to promote the economic, industrial and social interests of the membership of office workers unions."**

This conference affords an opportunity to all OEU locals to be represented at a meeting called for the purpose of reorganizing our International Council and to deal with the many problems that face all locals in their efforts to extend and promote the organization of white collar workers under the A. F. of L. banner.

All locals should take advantage of the opportunity afforded them by this conference to get together and plan a constructive program for our common benefit. President Green has wisely chosen Chicago for this conference, thus affording to all locals an opportunity to be represented without requiring undue traveling and other expenses.

The complete text of President Green's call for this conference appears on page 2.

It is up to us to take full advantage of the opportunities which the conference affords, and to see to it that our respective delegates are chosen wisely, and that they will be prepared to take an active and constructive part in laying the foundation at this conference for a strong, solid, and business-like structure upon which we can collectively work toward the establishment of our own international union.

No local should pass up the opportunity of being directly represented at this conference even if it is necessary to take up a collection to meet the delegates expenses, or even if it is necessary for the delegate to "do some hitch-hiking" to get to Chicago by July 28.

PRESIDENT WILLIAM GREEN

Trades Unionist," for nearly five years, he went on the CBS Washington staff as a news editor. He is at present commentator on labor, industry and related economics for WJSV-CBS and news editor on general news for both the station and the Washington office of the system.

Meetings and other activities of our union have often been reported on the "Labor News Review" and many of the objectives of our organization have been effectively publicized. As Brother Dennis begins his ninth successful year with his "Labor News Review," the officers and members of our union join in offering congratulations and all good wishes."

## MEMBERS PURCHASE WAR BONDS

The payroll deduction method of purchasing War Bonds by our members employed by the American Federation of Labor was inaugurated March 6, 1942.

Purchases for the first 10 weeks amounted to \$3,200. Further, a number of employes reported that they had previously arranged to buy War Bonds regularly through other sources, and it is estimated that such purchases amounted to approximately \$1,000.

The second series of 10-week deductions proved increasingly popular, and purchases amounted to \$4,750.

Therefore, the total amount of War Bonds purchased by our members employed in the A. F. of L. office since March 6 to date totals \$7,950, with approximately \$2,000 additional subscribed by other methods.

A number of employes not participating in these first two series of deductions have indicated their intention to participate in the third issue, which will commence July 24.

War stamps are also on sale at A. F. of L. headquarters for the convenience of office employes, and since March 20 to date a total of \$520 worth of stamps have been purchased by employes.

## LOCAL BUYS ANOTHER BOND

At our regular June meeting the membership adopted a recommendation of the Executive Committee that the Local purchase another \$100 War Bond. This additional bond was bought on June 11 and brings to a total of \$200 the War Bonds owned by our Union.

Informal surveys indicate that about 93 percent of our members employed by the International Association of Machinists and 81 percent of our members at A. F. of L. headquarters have bought bonds. What's the percentage at your office?
